DevSum 2026

Partner opportunities

<DevSum>

June 2-3, 2026

<What is DevSum?>

For the 22st consecutive year, we at Cornerstone are proud to present the most valuable developer conference in Sweden – DevSum.

During two days we focus on the latest trends and technologies within development. Our 70+ international and well recognized speakers are experts in various fields such as Web Development, Software Architecture, AI & Machine Learning, People & Teams, Programming languages and Cloud.

DevSum participants are developers at different levels who want to keep up with the latest trends, network with colleagues, get inspiration and get practical knowledge that they can take back to work the next day and actually use. Our participants work in a wide range of industies such as consulting, finance, insurance and the public sector.

DevSum is organized by the training company Cornerstone. Cornerstone trains thousands of IT-professionals and developers yearly in modern technologies such as .NET, Artificial Intelligence, Programming languages, Azure, Software Architecture and Security.

<Partner opportunities 2.0>

<Something extra?>

Is your organization already a partner but fancy something extra? We are always open for suggestions. Perhaps you want to spice up the booth or sponsor a lunch? Coffee break? Maybe bring your own beer? Whatever it is that you want to do, don't hesitate to contact us and we will figure something out together.

<Media partner>

Working with a smaller budget? Become a media partner and help us spread the word about the conference so people don't miss out on a great event! In exchange you'll get visibility in our channels or a ticket discount for your readers or listeners.

<Diamond>

Our Diamond partner gets provided with their own unique lounge. This area is not a booth – it's your own creative space with lots of possibilities to interact with the attendees.

As a diamond partner your only limitation is your own creativity.
